Committee on European Satellites

(Eusat Committee Meeting - 14th Meeting - 1330 23 May 1956)

Present:

25X1A9a

The discussion in this week's meeting was devoted to recent developments in the Satellite Area and certain common problems of methodology in economic analysis. Attention was also given to the need for precise description of qualitative aspects of products and services under study.

25X1A9a [REDACTED] Deputy Chief, EE in OCI will be the speaker at the meeting on 6 June. He has recently completed a study of political changes in the European Satellites and is particularly well qualified to discuss the subject at this time. Members are urged to convene promptly Wednesday at 1330 in room 2125 M.
